

## FEEDBACK FROM STAKEHOLDERS AND ACTION TAKEN

(2018 -2019)

The department has formal and informal mechanisms to obtain feedback from stakeholders through various committees, associations, organization, etc.

### **1.a. Students Feedback**

- Students requested practical-oriented teaching for all the subjects.
- Students requested an interaction session with senior students.
- Guidance in writing research paper article

### **1.b. Employers Feedback:**

- Required training programming on new technologies and mini projects before sitting for placement will help the students.
- Need to concentrate on core subjects.
- Need to focus on Programming skills and engineering basics.

### **1.c. Parents Feedback:**

- Additional classes needed for programming subject.
- Fees structure to be reduced
- Overall, the parents were happy about the hostel stay and felt good with the ambience which has been created for the students.

### **1.d. Alumni Feedback:**

- The alumnus has expressed that they enjoyed the healthy environment, infrastructure, well-established lab, also highly qualified and experienced faculty in Electrical and Electronics Engineering.
- Required training programming on emerging technologies.

## FEEDBACK ANALYSIS

### **Alumni Feedback:**

#### **Questionnaire for Alumni Feedback:**

1. Ability acquired to apply technical knowledge in identifying and analyzing engineering problems.
2. Ability acquired to integrate knowledge in providing solution for problems with multidisciplinary approach.
3. Ability acquired to continue learning new technologies, processes and domains.
4. Understand professional and ethical responsibilities as an engineer.

5. Be aware of the need for, and improved my ability to engage in life - long learning.
6. Be aware of contemporary issues.
7. Understand and appreciate the impact of engineering in the social and global contexts.
8. Seminars, workshop and add-on programs.
9. Special training classes to bridge the industry – academic gap.
10. Were you benefited by the mentoring system in the department?

### Feedback from Employer

#### Questionnaire for Employer Feedback:

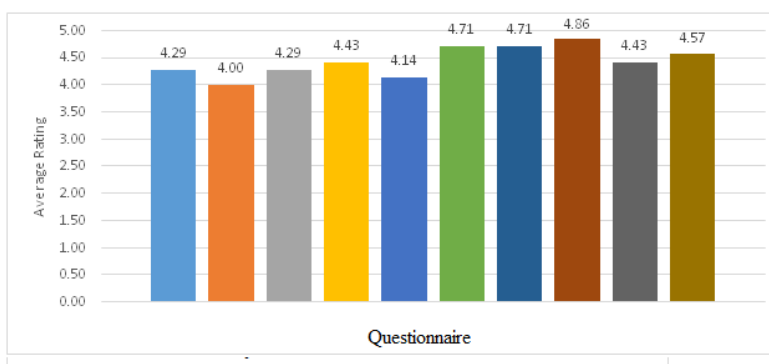

- Q1. General aptitude
- Q2. Technical aptitude
- Q3. Application oriented skills
- Q4. Basic technical knowledge
- Q5. Leadership qualities
- Q6. Professional knowledge
- Q7. Result orientation
- Q8. Creativity
- Q9. Attitude
- Q10. Communication skills
- Q11. Interpersonal relationship
- Q12. Team building
- Q13. Self-development

## Feedback from Parents

### Questionnaire for Parents Feedback:

- P1. The Curriculum of the course is well designed and promotes learning experience to the students.
- P2. The Curriculum incorporates technical advancements in the relevant field of study.
- P3. Does the Choice Based Credit System (CBCS) adapted in the Curriculum improve the academic flexibility?
- P4. Employability is given focus in the curriculum design.
- P5. Value Added Programmes like Communication Skills/Soft Skills development are added in the Curriculum.
- P6. Whether adequate technical guidance given to your ward for completion of Quality Assessment/Project Work
- P7. Does the department encourage the students to participate in Inter-Collegiate/Inter-Institutional Technical Fest?
- P8. Does the mentor of your ward offer a good mentoring?
- P9. Does the mentor communicate to you often about the academic status of your ward?
- P10. Does the mentor offer personal counselling to your ward when needed?

## Feedback from Students

### Questionnaire for Students Feedback:

- Q 1. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- Q 2. Problem analysis: Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- Q 3. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations
- Q 4. Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- Q 5. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.
- Q 6. The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

### **Program Specific Outcome**

- Q 7. Provide solid foundation in mathematical, scientific and engineering fundamentals which is required to solve electrical and electronics engineering problems
- Q 8. Specify, architect, analyze and design the systems that efficiently generate, transmit, distribute, convert and utilize electric power.
- Q 9. Understand, analyze, simulate and design the electrical machines, modern electrical drives, modern lighting systems, energy systems and automation of systems and to determine their performance through testing.
- Q 10. Specify, analyze, design, implement and test the analog and digital systems using the state of art components, software tools and ICT

FEEDBACK FORM FOR VISION, MISSION & PEOs FROM PARENTS	
NAME OF PARENT: <u>A. I. MANUEL RASUMAR</u>	
Sr. No.	Statement
1	<b>Current VISION Statement</b> To produce globally competent electrical and electronics engineers for addressing the needs of humanity with ethical values.
2	<b>Current MISSION Statement</b> ➤ To empower the students with knowledge in recent trends in Electrical and Electronics Engineering ➤ To impart technical skills to resolve industrial problems through innovative teaching learning practices and research. ➤ To raise professionals, academicians, researchers and entrepreneurs with a passion for solving societal problems.
3	<b>Program Educational Objectives (PEOs)</b> PEO 1. Pursue a successful career by demonstrating the knowledge acquired in Electrical Engineering PEO 2. Exhibit technical skills in solving real world problems considering societal, technological and business challenges. PEO 3. Engage in professional practice with ethical values and attitude of lifelong learning.
Dear Parent, do you feel:	
1. Whether the current statements of vision, mission and PEOs is as per current need. Yes <input checked="" type="checkbox"/> NO <input type="checkbox"/>	
2. Whether the institute is moving towards right path as per vision & mission statement. Yes <input checked="" type="checkbox"/> NO <input type="checkbox"/>	
3. Do you want to suggest changes in	
a) Mission statement Yes <input type="checkbox"/> NO <input checked="" type="checkbox"/>	
If yes, give suggestion here: .....	
b) PEOs statement Yes <input type="checkbox"/> NO <input checked="" type="checkbox"/>	
If yes, give suggestion here: .....	

You are requested to answer and rate the following questions which would help us in improving the quality and services offered. The rating can be between 1 and 5.

Score 1: Very poor; 2: Poor; 3: Neutral; 4: Good; 5: Very Good

S.No	Questions	Rating
<b>Curriculum</b>		
1	The Curriculum of the course is well designed and promotes learning experience to the students.	5
2	The Curriculum incorporates technical advancements in the relevant field of study.	5
3	Does the Choice Based Credit System (CBCS) adapted in the Curriculum improve the academic flexibility?	5
4	Employability is given focus in the curriculum design.	5
5	Value Add programmes like Communication Skills/Soft Skills development are added in the Curriculum.	5
6	The Institution provides for inter-institutional credit transfers.	5
7	Rating about Vision, Mission and PEO's	5
<b>Teaching-Learning</b>		
8	Does the department have adequate number of faculty to handle the course?	5
9	Does the department have faculty experts in relevant field of study?	5
10	Does the faculty cover the syllabus effectively for the course?	5
11	Whether adequate technical guidance given to your ward for completion of Quality Assessment/Project Work	5
12	Does the department have adequate library, laboratory and other infrastructure facility for the students?	5
<b>Students</b>		
13	Does the department encourage the students to participate in Inter-Collegiate/Inter-Institutional Technical Fest?	5
14	Do you receive relevant information like Attendance Percentage; Internal Test marks/Progress Report etc from the department?	5
<b>Mentoring</b>		
15	Does the mentor of your ward offer a good mentoring?	5
16	Does the mentor communicate to you often about the academic status of your ward?	5
17	Does the mentor offer personal counseling to your ward when needed?	5

Suggestions for further improvement:

Excellent, hence no suggestion

**FEEDBACK FROM CORPORATES**

**PERFORMANCE OF STUDENTS FROM KARUNYA UNIVERSITY**

1. Name of the Company: M/s Infosys
2. Nature of the Company – IT / ITES / Manufacturing / Service / Construction
3. Please rate the Overall Performance of our students as per the following parameters:-

**Technical Skills**

	Factors	Excellent	Good	Average	Below Average
A	General Aptitude		✓		
	Technical Aptitude			✓	
	Application Oriented Skills		✓		
	Basic Technical Knowledge			✓	

**Soft-Skills**

B	Leadership Qualities		✓		
	Professional Knowledge				
	Result Orientation		✓		
	Creativity	✓			
	Attitude		✓		
	Communication Skills	✓			
	Interpersonal Relationship	✓			
	Team Building	✓			
	Self Development			✓	

4. Kindly Indicate if you have any other additional feed-back to offer :-

Students are able to communicate well.  
Need to be more assertive and enthusiastic. Can improve  
basic technical knowledge. Mini Project before sitting for  
placements will help them speak up better. Should be punctual.

Signature: Angel

Name: Angelina Rachel Premkumar

Designation: Senior Lead- Talent Acquisition

Mobile Number: 9840001971

8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project management and finance:** Demonstrate knowledge and understanding of the Engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

**PROGRAM SPECIFIC OBJECTIVES (P.S.O) of EEE Department**

1. Provide solid foundation in mathematical, scientific and engineering fundamentals which is required to solve electrical and electronics engineering problems. .
2. Specify, architect, analyze and design the systems that efficiently generate, transmit, distribute, convert and utilize electric power.
3. Understand, analyze, simulate and design the electrical machines, modern electrical drives, modern lighting systems, energy systems and automation of systems and to determine their performance through testing.
4. Specify, analyze, design, implement and test the analog and digital systems using the state of art components, software tools and ICT.

1.	PE 5	Power Quality Issue And Mitigation / Distributed Generation and Micro grid/ Modeling and Control of Sustainable Power Systems	3	0	0	3
2.	OE	Cyber Security for Renewable Energy Systems / Smart Power Grid Renewable Energy Systems / Electric and Hybrid Vehicles	3	0	0	3
3.	Major Project	Phase – I Dissertation	0	0	16	8
4.	Total Credits					14

Semester IV						
Sr. No.	Core/Elective	Course Name	L	T	P	Credits
1.	Major Project	Phase – II Dissertation	0	0	30	15
2.	Total Credits					15

#### General Comments from the Experts

1. The experts appreciated the efforts taken by the members of faculty for framing the curriculum and syllabi of both B. Tech (E.E.E) and M.Tech (Renewable Energy) programmes.
2. The experts recommended the department to modernize all the laboratories, so that the students can spend more time on analysis part of the experiment instead of data acquisition during the period of conduction of experiment.
3. The students should be made aware of Bureau of Indian Standards (BIS) while carrying out the experiments.
4. In Electrical Machines – I laboratory & Electrical Machines – II laboratory, knowledge about the international standards, protection schemes for an electrical machine should be imparted.

Sub: Requesting permission to conduct an Add-On course on PCB Design and Fabrication for EEE students- reg

Respected Sir,

The Department of Electrical and Electronics Engineering is planning to conduct an Add-On course on "PCB Design and Fabrication". The course provides hands-on training on designing of PCB using Autodesk EAGLE software and fabrication of the same for B.Tech Electrical students from 6<sup>th</sup> to 8<sup>th</sup> March 2019.

Certificates will be given for all participants by fulfilling basic attendance requirements and best designer will be selected by small design problem. In view of this, we kindly request you to grant us permission for successful conduction of the course.

Thanking you.

Yours faithfully,

Karunya Nagar  
16.2.2019

### ACTION TAKEN

Based on the feedback collected through the class committee meeting, the following action has been taken.

- Organized seminar on “How to Write the Scientific Journal Papers to PG students”.
- To improve the exposure to examples of the use of engineering principles as applicable in real life, more emphasis is given to the practical oriented teaching and learning is promoted among the teaching and learning community.
- Laboratory timings extended and interaction sessions with senior students arranged.

Based on the feedback of the HR, the following action was taken by the department.

- A fully hands-on session on “PCB Design and Fabrication” was conducted using Autodesk EAGLE.
- Conducted Add-on Course on Solar PV System Design using PVsyst Software
- 

Based on the parents’ feedback, the following action was taken.

- Project-based learning and internships:
- The KITS introduced scholarship for both UG and PG courses.
- A special scholarship is introduced for girl students too.

Based on the feedback obtained from the stakeholders, the curriculum for the 2018 B.Tech programme was designed.

1. More interdisciplinary elements and interfaces:  
36 credits of Programme electives and open electives will be developed focusing more on interdisciplinary elements and interfaces of electrical engineering which will broaden the knowledge horizon of the students and enable them to pioneer in interdisciplinary projects.
2. Early industry exposure through project-based learning and internships:  
In order to encourage the project based learning and expose the students to the industry environment, 11 credits are prescribed for the project work. The project work will be done in a phased manner. Phase I project will enable the student to carry out the detailed survey or literature review on the topic proposed by the student for the project work. In Phase II project, the student will have flexibility to spend the period in any industry for a semester.  
Further, the student will be motivated to carry out a summer internship in any industry or other university.
3. Interpersonal skills training and development of a sense of social responsibility  
To improve the interpersonal skills, training and development of a sense of social responsibility, the following non-credit mandatory courses were introduced in the curriculum.
  - i. Environmental Studies
  - ii. Constitution of India
  - iii. Soft skills
4. Management knowledge and business process skills  
To impart knowledge on management and nurture the entrepreneur and business skills of the students, the following subjects, totally of 9 credits were introduced.
  - i. Industrial Management
  - ii. Professional Ethics
  - iii. Entrepreneurship and IPR
5. Practical oriented teaching and learning  
To improve the exposure to examples of the use of engineering principles as applicable in real life, more emphasis is given to the practical oriented teaching and learning is promoted among the teaching and learning community.
