Special thanks to the Department of Instrumentation engineering in helping to organize this event.

One of the most common malignancies in women nowadays is Breast Cancer. Breast Cancer is cancer that develops in breast tissue. There are more than 1 million cases per year in India. As the saying goes ‘Prevention is better than Cure’ it is better to be aware of the problem. It requires medical diagnosis, lab tests or imaging and is to be treated by medical professionals to avoid complications. There are 2 reasons why people die of any disease, firstly, Lack of awareness, people in our country need to be aware of the causes, effects and prevention of every disease. Secondly, inefficient facilities, few of the health centres do not have facilities which are up to the mark.

More than 100 individuals were given awareness about this disease. There were 50 plus successful screenings that happened during the camp. Few of the notable Rotarians from the region of Coimbatore were present. Directors of various avenues and many clubs from the Coimbatore region were present to highlight the gathering. With great hope we are taking a leap of faith believing this event is a grand success with a sole aim to help the people of our country.

The camp was well organized by, Mr. L.D. Vijay Anand, Club Coordinator, Rotaract Club, Mr. Arunkumar Manager, Thenmozhi Memorial Trust and Mr. Gideon, Student Coordinator – Rotaract.

c) Role Play In The Club/Dated 15-09-2018

The Rotaract club of karunya truly believes that nothing spectacular comes without hard work. Hard Work plays a very significant role in our life . It is the baseline of great achievements . Most of the events organised by our club signifies the role of hard work in our life. Setting goals, making plans to achieve them and staying on track is hard work. There are no shortcuts to lasting success, only smartcuts. Jim Rohn says “Don’t wish it were easier.Wish you were better “. Greatness is not handed to anyone ;it requires a lot of hard work. Hard work is challenging, painful and uncomfortable. But it’s the only way to the top. In fact , a major key to success is to learn to enjoy challenging work and to enjoy working hard at it. The good thing about hard work is that it is universal . Our idols, heroes and every successful person we know worked hard and made important and calculated choices before they reaped the rewards of success. We aim at creating opportunities and not waiting for them. When you learn to embrace hard work instead of running from it , you gain the ability to execute on your big goals , no matter what it takes to achieve them. The importance of hardwork is a timeless truth. If you are willing to put in the work, your efforts will pay off.
